About Me

Computer Engineer with **4+ years of experience as a Full-Stack Developer**. Currently working at CodigoDelSur on AI-powered solutions and backend systems. Strong background in **JavaScript/TypeScript and Python**, with hands-on experience in **Machine Learning** applied to real-world problems such as query translation, computer vision, and object detection. Passionate about building scalable web solutions that combine solid engineering with AI innovation.

Experience

Full-Stack Developer – CodigoDelSur (Oct 2021 – Present, Remote)

- **LLM-based query translation (2025)**: Designed and implemented an AI module to translate user queries from natural language into structured outputs.
- **Milc (2023)**: Full-stack development with focus on backend. Implemented features, fixed bugs, and wrote tests for a dairy software application.
- **Pacpost (2022)**: Collaborated on real-time video communication and streaming web apps using WebRTC.
- **Gazeus Gaming (2021)**: Contributed to backend development in TypeScript for a multiplayer gaming mobile app (staff augmentation).

Full-Stack Developer – Octobot (Mar 2021 – Sep 2021, Montevideo, Hybrid)

- Completed a short bootcamp to learn company technologies and workflows.
- Contributed to the development of a pharmaceutical app using Python/Django (backend) and React (frontend).

Education

Computer Engineer (Ingeniería en Computación) – Universidad de la República, Uruguay (2017 – 2024)

Comprehensive training in algorithms, distributed systems, databases, operating systems, AI and machine learning.

Certificate in Advanced English (CAE, C1) – University of Cambridge

Certifications

- **Back End Development and APIs** – freeCodeCamp (2021)
- **Introduction to Machine Learning** – Duke University (Coursera, 2021)

Skills

- **Languages**: JavaScript, TypeScript, Python
- **Frameworks & Libraries**: React, Redux, NestJS, ExpressJS, Django REST Framework
- **Databases**: PostgreSQL, MongoDB, Redis
- **DevOps & Tools**: Linux, Git, AWS (EC2, S3), Docker, PM2, Sentry
- **Machine Learning**: Object Detection, Computer Vision, LLMs for query translation
- **Methodologies**: Scrum, Agile

Languages

- Spanish: Native
- English: Advanced (CAE, C1)
